		Cam N. Nguyen	1754	
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply				
 A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of an RCE Application

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after the final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission filed on 12/21/05 has been entered.

Response to Amendment

2. Applicants' amendment and remarks, filed November 28, 2005, has been made of record and entered. Claim 20 has been canceled. Claim 21 has been added.

Claims 1-19 & 21 are currently pending and under consideration.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422

Application/Control Number: 10/655,322

Art Unit: 1754

F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-7, 9-15, 17-19, & 21 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-8 & 18-21 of *U.S. Patent No. 6,136,287* "hereinafter Pat '287". Although the conflicting claims are not identical, they are not patentably distinct from each other because of the following reasons.

It is considered that the "multiple metal oxide" of the instant claims 1 & 11 encompasses the "lithium manganese oxide" disclosed in the Pat '287. Also, it is considered both the instant claimed particles product and the particles product disclosed in the Pat '287 are the same in view of the lithium and manganese metal components being claimed in the dependent claims 6, 7, 14, 15, & 21.

5. Claims 1-5, 8-13, & 16-19 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-10 of <u>U.S.</u>

Patent No. 6,225,007 B1 "hereinafter Pat '007". Although the conflicting claims are not identical, they are not patentably distinct from each other because of the following reasons.

Application/Control Number: 10/655,322

Art Unit: 1754

It is considered that the "multiple metal oxide" of the instant claims 1 & 11 encompasses the "vanadium metal oxide" disclosed in the Pat '007. Also, it is considered both the instant claimed particles product and the particles product disclosed in the Pat '007 are the same in view of the "vanadium" metal component being claimed in the dependent claims 8 & 16.

Response to Applicants' Arguments

6. Applicants' amendment and remarks filed on December 21, 2005 has been fully considered, but not deemed persuasive in view of the new ground of rejections above.

Conclusion

- 7. Claims 1-19 & 21 are pending. Claims 1-19 & 21 are rejected. No claims are allowed.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Primary Examiner Cam N Nguyen, whose telephone number is 571-272-1357. The examiner can normally be reached on M, W, R, & F, 9:00 AM 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman, can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
